

QUALITY POLICY

Aware of the urgent need to systematically improve the market position of Mundifios, in order to remain competitive in a highly competitive market, the Administration:

- It reinforces its customer orientation, for the continuous and progressive satisfaction of its needs and expectations, a key factor of its loyalty;
- Improve the factors that influence the productivity of the organization, optimizing resources, improving processes and eliminating redundant operations and those that do not add value;
- Diversifying suppliers and valuing their potential;
- Comply with all laws and regulations, in particular related to the products and services provided;
- Involve the entire organization in the processes of continuous improvement;
- Maintain the ambition of assuming our leadership in the domestic market and strengthening our position in foreign markets.
